

## Leonardo PSS password policy updates:

Leonardo Inventory (Leonardo PSS) password policy for operator authorization has been updated as follows:

### 1. Password requirements:

- From 12 to 30 characters (and contain at least 7 unique symbols)
- Upper- and lower-case Latin/Cyrillic letters, numbers and special characters [!@#\\$\\$%^&'\(\)\\*+,-./:;<=>?\[\\]^\\_`{|}](#)
- No repeats or keyboard walks like qwerty, 123456, aaa111, etc.
- Different from the previous 4 passwords

### 2. Validity period

- 2.1. Password set by the operator must be updated every 90 days
- 2.2. The default password assigned to a new operator (or due to password reset procedure) must be changed upon first login.

### 3. Operator ID is blocked after unsuccessful login attempts

- 3.1. Operator ID is blocked after 3 unsuccessful login attempts
- 3.2. Password for system login can be reset by airline's Leonardo PSS administrator (if any) or by sending request to Leonardo PSS support service

### 4. Inactive operator IDs are blocked

Inactive operator IDs are blocked after 45 days. Operator ID can be unblocked by airline's Leonardo PSS administrator (if any) or by sending a request to Leonardo PSS support service
